## Custom Remotes

GDI Technology's custom remote control solutions address the needs of companies within many different industry segments including Cable Operators, Consumer Electronics, Medical, and Hospitality.

GDI provides service from initial concept design to final product delivery and support. We have one of the most comprehensive library codes in the market and are considered one of the market leaders in delivering high performance and robust digital remote cable controls to the industry.

We carry a wide range of standard remote control models that can be customized and tailored to your specifications. We can also design your custom remote control using innovative design molds and tooling, custom IC and programming, custom color, and brand personalization.
