GDI TECHNOLOGY - ADVISORIES

Important notice about shipping delays

To our Valued Customers:

In order to best serve our customers, GDI Technology will be communicating periodic advisories on the current conditions of the Global Supply Chain as well as South Florida logistics updates.

For week 35, South Florida's ports continue to be congested due to global imports recovering from past Far East port closures and reopenings. South Florida container volume traffic for inbound and outbound deliveries at most terminals is extremely congested with average wait times of 3-7 hours depending on the terminal and time of day.

The lack of available truckers this week, in addition to drivers declining assignments in heavily congested terminals, has required trucking companies to implement Port Congestion Surcharges to fairly compensate truck drivers.

GDI Technology Inc will continue to collaborate with our logistics partners in order to provide

Best-in-Class service. We appreciate your trust, support, and understanding during these challenging times.

For more information please contact your Sales Representative or call **305-969-2047**

Thank you for your continued business.

Sincerely,

Executive Management
